

Energy Saving Programs – Incentives and Rebates!

ELECTRIC AND GAS

No-Cost Home Energy Assessment

Take the first step to create a more energy efficient home by scheduling a No-Cost Home Energy Assessment. Your National Grid Energy Specialist will come to your home, complete an attic-to-basement evaluation, and provide a custom home energy report outlining recommended energy efficiency improvements. Please call 1-888-633-7947 to schedule an assessment of your 1 to 4 unit home. You may even qualify for incentives towards home insulation and air sealing! (<https://www.myngrid.com/energywise>, 1-888-633-7947)

HEAT Loan 0% Financing

Customers who complete their No-Cost Home Energy Assessment can apply for a 0% HEAT Loan, up to \$25,000 with terms of up to 7 years, from participating lenders to assist with the installation of qualified energy efficient improvements in their homes.

New Construction

Benefit from design support, in-field technical support and inspections to create an energy-efficient home. Working in partnership with your builder and you, National Grid will provide incentives on energy efficient heating and cooling, windows, lighting, appliances, and more. A certified Home Energy Rating System (HERS) expert will assess the energy efficiency of your new home. National Grid also provides technical assistance if you choose to pursue optional ENERGY STAR® certification. ENERGY STAR homes deliver energy savings of up to 30% when compared to typical new homes. To get started, call 1-888-887-8841, or download our program description.

Heating Your Home

Heating makes up a big part of your home's energy budget—as much as 50 percent for those of us who live in the Northeast. Install a qualifying ENERGY STAR® energy efficient central heat pump, mini-split heat pump, boiler, or furnace to save up to 30% a year on energy costs. 1-800-473-1105 (electric) and 1-800-292-2032 (gas).

Wi-Fi Programmable Thermostats

A Wi-Fi programmable thermostat contains built-in wireless technology that allows you to program it remotely through your smart phone or computer. You can change the

temperature, keep your home comfortable, and reduce your energy use — even when you're not home! National Grid offers a rebate of up to \$50. (E-mail ngridinfo@smartenergy-zone.com, 1-800-292-2032)

Multi-Family Properties

National Grid offers no-cost energy assessments in multi-family complexes to identify opportunities for maximizing energy savings throughout the whole facility. Program benefits include lower energy bills for tenants and/or owners and a more even and comfortable temperature throughout the building. Call 1-888-633-7947 to learn more.

ELECTRIC

ENERGY STAR® Certified Light Bulbs and Fixtures
Buy ENERGY STAR certified light emitting diode bulbs (LEDs) and energy efficient lighting fixtures at a participating retailer and receive special in-store pricing. For a list of retailers in your neighborhood, [click here](#), or order online or by phone at 1-877-795-4415.

Appliances and Electronics

Rebates are available on the latest energy efficient appliances and electronics: clothes dryers (\$50), dehumidifiers (\$30), room air cleaners (\$40), and more. Using advanced power strips (\$15 discount) can save up to \$100 a year in energy costs and protect your electronics from power surges.

Refrigerator or Freezer Recycling

Recycle your old, inefficient refrigerator or freezer. National Grid will pick it up at no-cost – at a time that’s convenient for you. Enjoy a \$50 rebate from National Grid for recycling responsibly. Plus, you’ll save up to \$150 a year in avoided electric costs. Call 1-877-889-4762 to schedule a pick up.

Central Air Conditioning Systems and ENERGY STAR® Certified Room Air Conditioners

Get a rebate of up to \$500 for an ENERGY STAR® certified central air conditioning system, central heat pump, or mini-split heat pump... and save up to 30% a year on energy costs.

Save \$40 on an ENERGY STAR® certified room air conditioners available from select retailer partners. To find a local retailer partner, [click here](#).

ENERGY STAR® Certified Electric Heat Pump Water Heaters

National Grid offers a \$750 rebate on ENERGY STAR® certified electric heat pump water heaters. Electric heat pump water heaters use electricity to move heat from one place to another instead of generating heat directly. This makes them two to three times more energy-efficient than a conventional electric water heater.

Energy-Saving Fundraiser Program

National Grid provides free educational materials, demonstrations, and full support for schools to host a fundraising event with all proceeds going directly to the school. Students sell energy-efficient products such as LED light bulbs, advanced power strips and low-flow showerheads and earn rewards based on quantities sold. It’s a fun energy education for everyone! To get started, call 1-877-ESTAR-4-U (1-877-378-2748).

Renters

Rent an apartment or condo? We offer savings on light bulbs, advanced power strips, and appliances.
